GAYLORD FAIR NEXT WEEK

BIG PROGRAM OF SPORTS AND AMUSEMENTS.

The "Top O' Michigan" fair will be held at Gaylord on Sept. 18, 19, 20 and 21, and the fair management extends the people of Grayling and vicinity a cordial invitation to attend.

This fair is alleged to be the largest in Northeastern Michigan—North of Bay City, and has exhibited successfully for 42 years. Herman Lundeh, well-known lumberman and a member of the State Conservation commission, is president of the fair, and is devoting considerable of his time to make it a success.

The fair will be held both night and day. Workmen are just completing what is said to be the largest dancing pavilion in Northeastern Michigan, for the accommodation of the night crowds. A special building for the display of automobiles is also in process of construction.

The Fair Association has appropriated \$1,000 for premiums and an equal amount for free attractions. Among the latter will be seen Lester, Bell & Giffin, comedy acrobats who go to Gaylord direct from the big Saginaw fair; the Yokohama boys, Japanese tumblers, said to be among the best in their line; a stock parade daily in front of the grand stand; a plowing contest; slow auto races; a large number of horse events, etc.

For those who like base ball, there will be plenty of entertainment along this line. Among the teams that will play will be the crack Studebakers of Cheboygan, East Jordan, Gaylord, Attantia, Elmira, Vanderbilt, Johannesburg. The Cheboygan-East Jordan game on the third day of the fair will be a contest well worth seeing, as both teams are well matched, and have played the best ball this year of all Northern Michigan.

Among the exhibits that of the Grayling Fox ranch, will be of particular interest. This ranch will show a pen of black foxes and several pens of chinchilla rabbits, both of which are something of a novelty and

never before seen by many people in this locality. The exhibit will also contain several head of the famous Karakul sheep, imported from Asia. There are very few flocks of this wonderful sheep in the entire United States. Mr. Geraldine will likewise make a showing of his blooded cattle and swine.

Entries in all departments are coming in rapidly, and every inch of display space will be taken. Entries are being made by farmers of Otsu, Montmorency, Antrim and Charlevoix counties.

Nearly all roads to Gaylord are in good condition, and a large attendance is expected. There is much in common between Crawford County and Otsego County, and no doubt many of our people will attend the exposition.

TEACHERS RECEPTION SAT. NIGHT

PUBLIC INVITED. TO BE GIVEN AT SCHOOL GYMNASIUM.

The annual reception for the teachers of the public schools will be given Saturday evening in the school gymnasium.

The affair is sponsored by the ladies of the two Women's Clubs and the School Board, and promises to be pleasant and enjoyable as it has always been in the past. The music for dancing will be furnished by Schram's Orchestra. A large crowd is expected to attend to welcome teachers who are returning as well as the new ones. This should interest every citizen of Grayling.

CARD OF THANKS.

We wish to thank those who were so kind to us at the time of the fire that damaged our home, in trying to remove our belongings and in other ways.

James Hanson,
Mr. and Mrs. Ralph Hollowell

Singer Sewing Machine oil. Nothing better for fine machinery and guns. 3 oz. bottles 15 cents.
E. J. Olson.

MASONS TO MEET IN CAPITOL CITY

Cornerstone of George Washington Memorial To Be Laid That Day.

STRUCTURE TO COST \$4,000,000.

Impressive Ceremonies Will Be Witnessed By Thousands of Members of the Order.

Greatest of all memorials ever erected to any man will be the George Washington National Masonic Memorial, now being built in Alexandria, Va., just outside the national capital. The cornerstone of this beautiful and extensive structure, to cost 4,000,000, will be laid on Thursday, Nov. 1, and Masons of the United States are planning upon making this great occasion the most impressive in the history of the order. It is expected that every one of the 17,000 Blue Lodges in this country will have one or more representatives at the Nov. 1 festivities. In addition, there will be pilgrimages from every state. Builders already are springing to handle the enormous number of travelers to Washington, which is expected to reach into the hundred thousands. There are approximately 3,000,000 Masons in the United States, and every one of them will want to be present at this momentous ceremony. A large delegation is expected to go from this city.

The George Washington National Masonic Memorial project was determined upon at a meeting of prominent Masons from several Grand Jurisdictions in Alexandria on Feb. 22, 1910. This meeting was held in the historic lodge room of Alexandria-Washington Lodge, No. 32, of which the first president was the first Worshipful Master and over whose deliberations he presided when he was the chief executive of the nation. The plans at first were fairly modest, but as they were discussed year after year they were enlarged until at present they have assumed gigantic proportions.

The memorial is being erected on Shooters Hill at Alexandria, on the Arlington Ridge, which commands a view of the city of Washington. The Memorial association has acquired in all 33 acres of land surrounding Shooters Hill, which will be passed by all those who travel from the national capital to Mount Vernon, Washington's home. The edifice will be surrounded by artistic landscaping and will be reached by broad walks and stone steps ascending through seven terraces.

From the topmost colonnade of the memorial, visitors will view for miles around the region in which Washington passed a great portion of his life.

The dimensions of the edifice over all will be 230 feet in depth by 160 feet in width, exclusive of the steps, terraces and approaches. Its height to the summit of the observation tower will be 200 feet. The main masses of the building comprise a base in which will be located the great Washington Memorial Hall and various Masonic rooms, and above this base will rise a form of tower. One of the most stately features will be an imposing atrium, 70 feet wide and 100 feet deep, in which it is proposed to set a statue of George Washington. This hall will be 64 feet high, rising by a cicerone above the surrounding portion of the building. It will be flanked by great Ionic columns 40 feet high and surrounded by a number of rooms devoted to Masonic interests above the roof of which cicerone lights will admit the light.

The entrance of the building will be expressed in a six-columned portico of pure Greek Doric design, forming an interesting contrast to the plain unbroken side walls of the Masonic rooms. Rising above the Memorial Hall, and forming the second story of the tower, will be a museum room to house the many memorabilia of George Washington and his time, as well as interesting relics connected with Washington's service as Master of Alexandria-Washington Lodge. There will be a third level above the museum, above which again there will be a covered observation platform, all three levels screened by stately colonnades.

The architects of this superlative edifice are Helms & Corbett of New York, with S. Eugene Osgood of Grand Rapids, Mich., as consulting architect. The landscape architects are Olmstead Bros. of Brookline, Mass. When he presented the model of the structure to the memorial association a year ago, Architect H. W. Corbett said: "The George Washington National Masonic Memorial is primarily a memorial to George Washington, the man and the Mason. Its form is inspired by the great towers built in the ancient days of Greece and Rome to mark the entrances to their harbors and from whose summits permanent burning flares that could be seen for miles at sea, guided the mariner on his way. The great tower of the memorial represents to the world at large the guiding spirit of Washington in statesmanship and his revered precepts which for all time will set an example by which the Ship of State may direct its course."

In addition to housing the priceless relics of Washington possessed by the Alexandria Lodge, the memorial will be the center and rallying point for Masons of the United States and of all other countries. One of the most prized of the relics is the trowel used by General Washington Sept. 18, 1795 to lay the cornerstones of the capitol of the United States at Washington, D. C. Another priceless possession

NO NEED OF CONTAGIOUS ILLNESS

TREATMENT MAKES CHILDREN IMMUNE FOR 20 OR MORE YEARS.

Dr. Pool of State Health Dept. Addresses Meeting at B. of T. Dinner.

Dr. Pool of the State Board of Health, a cousin of Dr. H. B. Pool of this city addressed a meeting of the Board of Trade and the ladies of the Good Fellowship and Women's clubs at the Thursday noon luncheon held at Shoppemagun Inn last week Thursday. The theme of his remarks related to the immunization against disease. In part Dr. Pool said as follows:

I wish to address you with especial reference to the contagious diseases and how the individual and community can protect himself or themselves against them. Dr. Park, the leading public health authority in America, and professor of Public Health and Hygiene at Columbia University, says that all contagious diseases are preventable. He further states that even if only the most advanced vaccine offers were utilized there would be over fifty per cent less waste illness due directly to contagious disease, and an even greater reduction of chronic disorders which follow in the train of contagion. Such chronic disorders would be defective eyesight, as may result from measles; or chronically discharging ears from infection during scarlet fever; or permanent paralysis of legs or arms that may be due to the poisons that diphtheria or infantile paralysis produce, etc.

Immunity to disease means that the particular individual carries in his blood and tissues a substance known as anti-bodies, that is able to protect that person from the invasion of that particular disease. This immunity may be inherited; may be the result of the recovery of that person from the disease in question or may be induced by medical means. Immunity to such diseases as measles, diphtheria and influenza, and last but not least scarlet fever, measles, etc., but that to scarlet fever, measles, whooping cough, etc., usually protects for the rest of the life of the person having had the disease.

In recent years it has been proven beyond question that vaccine against typhoid will protect against that disease for at least four years; vaccine against smallpox will last for a longer time and now a vaccine preparation, known as toxin-antitoxin, will protect against diphtheria for 15 or 20 years and probably for life.

The first two are known to every one, but the latter is well known only in the larger cities where it is offered. It has been tested in over a hundred thousands cases. This knowledge is of vital importance to every parent of every teacher who has children under his or her care as well as to doctors and nurses who are called upon to care for these same children when disease appears among them.

No child need ever in the future suffer from the ravages of diphtheria, and any parent, teacher or doctor knowing of this preventative, and failing to use it in the protection of those under their care is directly responsible for the results should diphtheria endanger them.

Toxin-antitoxin is administered by hypodermic, causes almost no reaction and the child can continue at school without loss of time and without any especial discomfort. The department of health at Lansing stands ready to furnish without cost the drugs and if the people of Grayling wish to introduce this in their schools in a thorough manner a nurse will be sent to assist in giving the Schick test and in treating those who need it. The Schick test is a simple skin test that shows in 24 to 48 hours whether the person has a natural immunity to diphtheria. The department is ready and it is in your hands to remove the constant threat of diphtheria epidemic and to be free from it forever.

With this information at hand parents, teachers and nurses are responsible according to Dr. Pool, if they are not taken advantage of and applied and thus protecting the younger generations from taking such diseases as he mentioned—smallpox, scarlet fever, diphtheria, influenza, measles and whooping cough. According to his statement the State Health department stands ready to assist in the work of vaccination and other treatments whenever this or any other community may desire to have it done.

The Alexandria Lodge to be housed in the memorial is the Williams portrait of Washington, painted in 1794—the true likeness of the Father of His Country in existence, for the artist was instructed to "paint him as he is," which he did.

A large delegation of Masons from this city and nearby communities will journey to Washington and Alexandria, to be present at the laying of the cornerstone of the Washington Memorial on Nov. 1. The event without doubt will be one of the most imposing in the history of the national capital, a city used to large assemblages and to momentous and inspiring scenes.

If you are living in a rooming house you may have your personal belongings insured against fire at small cost. And should you move to other quarters your policy can be easily transferred without cost. Call at the AVALANCHE office for particulars.

CELEBRATION FUND IS OVERDRAWN

\$615 NOT ENOUGH TO PAY 4TH OF JULY BLOW OUT.

The Fourth of July celebration committee have just made a final audit of the receipts and expenditures incurred during the celebration this year, and find that they lack \$29.32 of having enough money with which to pay their bills. The amount of money subscribed was \$586.00; and the amount paid out \$615.32.

Following are the items of expenses:

Prizes for floats, autos and sports	\$212.00
Boy Scout, meals	18.70
Olaf Sorenson & Sons, fireworks	270.60
O. P. Schumann, printing	39.98
William Coles, postage bills	1.50
Ben Yoder, putting up decorations	10.00
Harvey Wheeler, drayage on lumber	7.90
T. W. Hanson, lumber for hurdles	1.25
Oscar Corwin, hauling brush for harbor	7.12
Grayling Mercantile Co., decorations	1.50
T. W. Hanson, lumber for fireworks	40.87
Hans M. Nelson, gas and oil for boy scouts	3.50
Subscriptions	1.50
Short	\$615.32
Decorations now in hands of C. J. McArthur	29.32

ARENA COUNTY FAIR, SEPT. 18-21.

The 33rd Arena County Fair will be put on in Standish next week Tuesday, Wednesday, Thursday, and Friday, Sept. 18, 19, 20 and 21. In addition to the regular fair a night carnival will be staged the last three nights of the fair. The best first acts ever contracted for by the Arena County Fair will provide entertainment for fair visitors. The large Arena County Fair will provide side attractions for the midway, including Doss, the man who grows two feet by being watched by his audience, big merry-go-round and Ferris wheel, three fast ball games, three afternoon horse races, American famous Saginaw band, excellent exhibits including Arena's finest herd of new dairy cows. See for yourself how Arena has progressed.

STATE POLICE WILL BAR PARKING ON HIGHWAYS.

Lansing, Sept. 6.—Col. Roy C. Van Dusen, head of the state department of public safety, Thursday issued orders to all detachments of the state police to proceed at once with the parking of all trunk lines, prohibiting the parking of automobiles on the highway.

This action is in compliance with provisions of the uniform traffic law which went into effect a week ago. This will prevent motorists from parking their cars on concrete pavements or gravel roads for any purpose, including the repair of tires and so, for the purpose of keeping the highways clear at all times.

Signs will be posted on gravel roads and will be painted on all paved sections of trunk lines.

READY FOR MUSIC CLASSES. Vacation days are over and I am again ready to begin my piano instruction. Make applications early. Phone 714 or address Prof. C. M. Fuller, Grayling.

Smoking the peace pipe in wartime

A late report from an A. E. F. veteran who found a can of tobacco in his soldier mail

It was during the thick of things in France that Gen. Pershing sent the following frantic cable to Washington:

"Tobacco is as necessary as food. Send a thousand tons at once."

As any ex-doughboy will tell you, a thousand tons of tobacco distributed over a fighting force of 2,000,000 men showed good intentions, but it didn't fill the need—not by a few million pipefuls.

Even today letters still come in from veterans who have forgotten the horrors of war and remember only the thrill of "a real American smoke" in France.

For one, Hugh Livingstone, Adjutant of Yankee Division Post, No. 272, V.F.W., remembers:

Providence, R. I.

Larus & Brother Co.,

Richmond, Va.

My introduction to Edgeworth took place over in the training area in France under circumstances that left a lasting impression of the good qualities of Edgeworth.

One night, after a hard day's work, my bunkie drew a package from him, one of those mysterious affairs that might contain anything but what you want it.

After the excitement of guessing he opened it and the first thing we saw was the blue box of Edgeworth. All further operations consisted of welling the pipes.

After using the French tobacco for several weeks and burning our mouths and throats to a raw state you can imagine how cool and satisfying that Edgeworth tasted to us.

We smoked until we were ordered to bed, and I fell asleep smoking. You can just bet a letter went home for more Edgeworth.

Since that time I have used about every kind of tobacco that is put up, but it is Edgeworth for me when I get it. Thank you for putting such a satisfying and cool tobacco on the market.

Gratefully yours,

Signed: Hugh Livingstone.

Probably any good American smoking tobacco would have brought the same joy to Mr. Livingstone and his bunkie in France.

But it is a fact that when Edgeworth is used, more often than not it is a life-time affair.

Edgeworth's are great assets for most smokers. It is always the same. You can buy a package in Chicago, another in New Orleans, another in San Francisco, and each package will give you the same cool, satisfying smoke.

If you are not an Edgeworth smoker, you are cordially invited to accept some free samples of both Edgeworth Plug Slice and Ready-Rubbed.

Just drop a postcard with your name and address to Larus & Brother Company, 78 South 21st Street, Richmond, Va., and the free samples will be forwarded to you immediately. If you will also include the name and address of your tobacco dealer, your courtesy will be appreciated.

To Retail Tobacco Merchants: If your jobber cannot supply you with Edgeworth, Larus & Brother Company will gladly send you prepaid by parcel post a one- or two-dozen carton of any size of Edgeworth Plug Slice or Ready-Rubbed for the same price you would pay the jobber.

The Proper Use of Words.

Mother, who had been out the greater part of a rainy morning, came in with damp skirts and dripping umbrellas and said to Violet, three years old, standing in the hall:

"The day is so momentous it's a pleasure to be out."

Some time that afternoon, Violet, whose curly locks had been twisted and pinned in a knot on top of her head by mother, approached the latter and said:

"Mother, I wish you'd remove this hairpin. It feels so inconvenient."—Droll anapolsis News.

Hall's Catarrh Medicine will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

One box for \$1.00. Two boxes for \$1.95. Free literature. Ras-Mah Capsules.

W. N. U., DETROIT, NO. 37-1923.

DAIRY FACTS

Dairy Cows Respond to Good Feed and Treatment

A dairy cow will respond to good feeding and good treatment, perhaps better than any other farm animal. Each individual dairy cow should be a unit by herself. Unlike other farm animals, dairy cows cannot be efficiently fed in a feed lot, as the requirements for each cow may be different.

The best feed for dairy cows is an abundance of pasture grass when that is available. A good pasture provides a balanced ration. Some high-producing cows will require a little grain as a supplement to pasture.

During the time of the year when a good pasture is not available, a cow can be fed efficiently by providing:

1. An abundance of palatable feed.
2. A balanced ration.
3. Succulent feed.
4. A moderate temperature in barn.
5. Comfortable surroundings.

A dairy cow is fed for the following purposes:

1. For maintaining the body.
2. To supply material for milk.
3. For development of fetus.
4. For growth of animal, if immature.

At times to produce gain in weight.

Three general classes of food material are required for feeding cows:

1. Protein or nitrogenous material.
2. Carbohydrates and fat to supply heat and energy.
3. Ash or mineral matter.

A well-balanced dairy ration will contain the above food material in the proper proportions. In making up a feed for dairy cows, it is usually most convenient to balance the roughage and concentrates separately and then feed all the roughage each cow will eat and adjust the grain mixture to the amount of milk or butterfat produced by the cow.

A good general rule to use as a guide in feeding is to feed from one-fourth to one-half as much of a balanced grain mixture per day as the cow gives milk per day. Cows giving rich milk usually give less per day, but need a little more grain in proportion of the milk—A. C. Baer, Professor of Dairying, Oklahoma A. and M. College.

Summer Suggestions on Care of Dairy Utensils

It is more or less difficult to give adequate care to the dairy utensils during the summer months. This is due to the fact that hot scalding water or steam is more troublesome to obtain. Proper care of these utensils is important during the summer months due to the temperature which favors the multiplication of bacteria. In the production of high-grade milk it is necessary that all utensils be thoroughly cleaned, for if any organic matter is left in any of them, it is almost impossible to produce the desired quality of milk.

If the utensils are cleaned with water just as it comes from the well or tap, some bacteria will remain which will multiply very rapidly during the warm weather of the summer months. The utensils should be sterilized, and this is done by exposing them to live steam for several minutes. In the cleaning of tinware they should be first washed with cold water and then with hot water and a washing powder that is alkaline in nature. Ordinary soaps are not satisfactory in the cleaning of the utensils of the dairy. After the tinware has been thoroughly cleaned it should be sterilized. Sterilization is the most important factor in the production of high-grade milk.

—B. W. Fairbanks, Associate Professor of Animal Husbandry, Colorado Agricultural College.

Series of Experiments to Decide Value of Corn

Recently a series of experiments was run to decide the value of grinding corn. In these tests it was found that cornmeal produced 7 per cent more milk and 14 per cent more fat than whole corn. Whole corn and corn meal were compared with cornmeal. It was found that the cornmeal was slightly in the lead, having a 2 per cent better production in butterfat. Even though the corn is extra cheap, the cows will still benefit from a meal of themselves to the extent that they are fed corn that has been ground.

Regularity of Feeding Is of Much Importance

Regularity of feeding is of greater importance than time of feeding. In the case of dairy cows, the dairy cow should have regular meal hours. More roughage will be consumed if it is fed two or three times a day instead of only once.

Feeding of Minerals to Cows Is Not Profitable

Feeding of mineral mixtures to dairy cows did not show profit in pounds of milk produced at the Ohio station, where it was carefully tried out.

To supply minerals to dairy cows in forms that can best be used is by feeding legume roughage, such as alfalfa hay, clover and soy bean hay, rich in minerals and nitrogen. This applies both in raising young animals and feeding for milk production.

"Forty-Pound" Cow.

A "forty-pound honor roll" cow means that, as tested in a dairy improvement association, she has made forty pounds of butterfat in a month.

Distribution of Feed.

One-half of the feed that a good dairy cow will eat is required for maintenance. That other half which goes into milk is often lacking.

Keep Milk Cold.

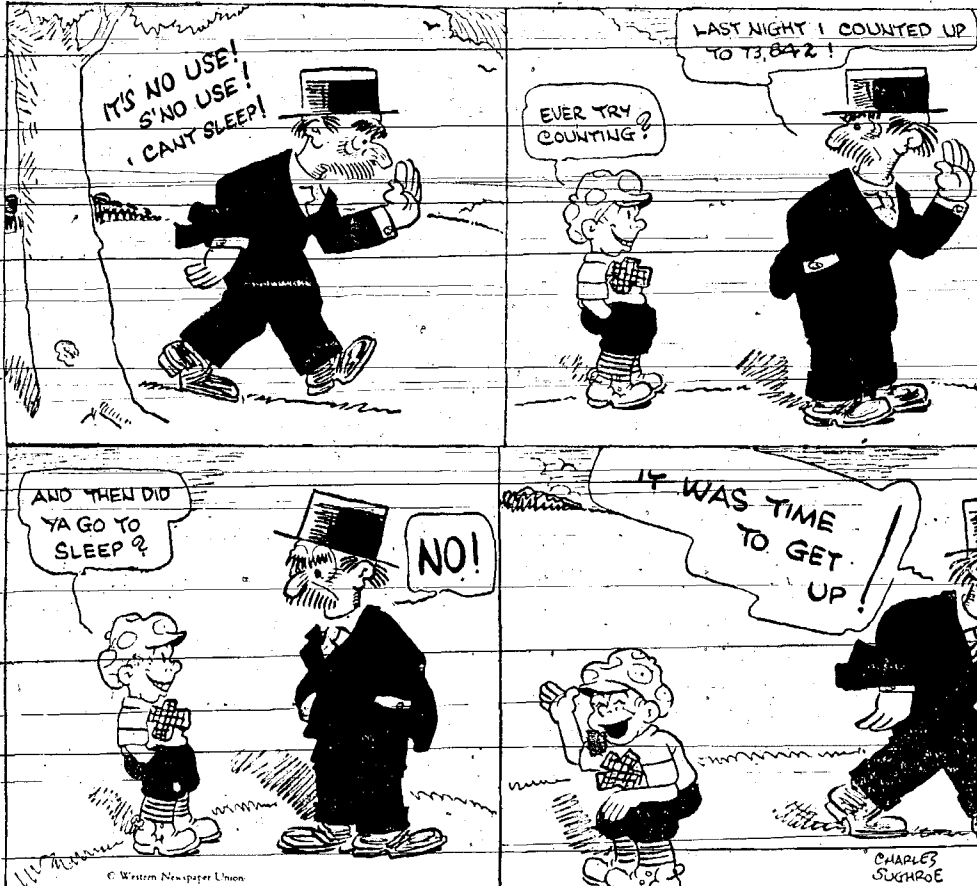

Keep milk in coldest available place.

OUR COMIC SECTION

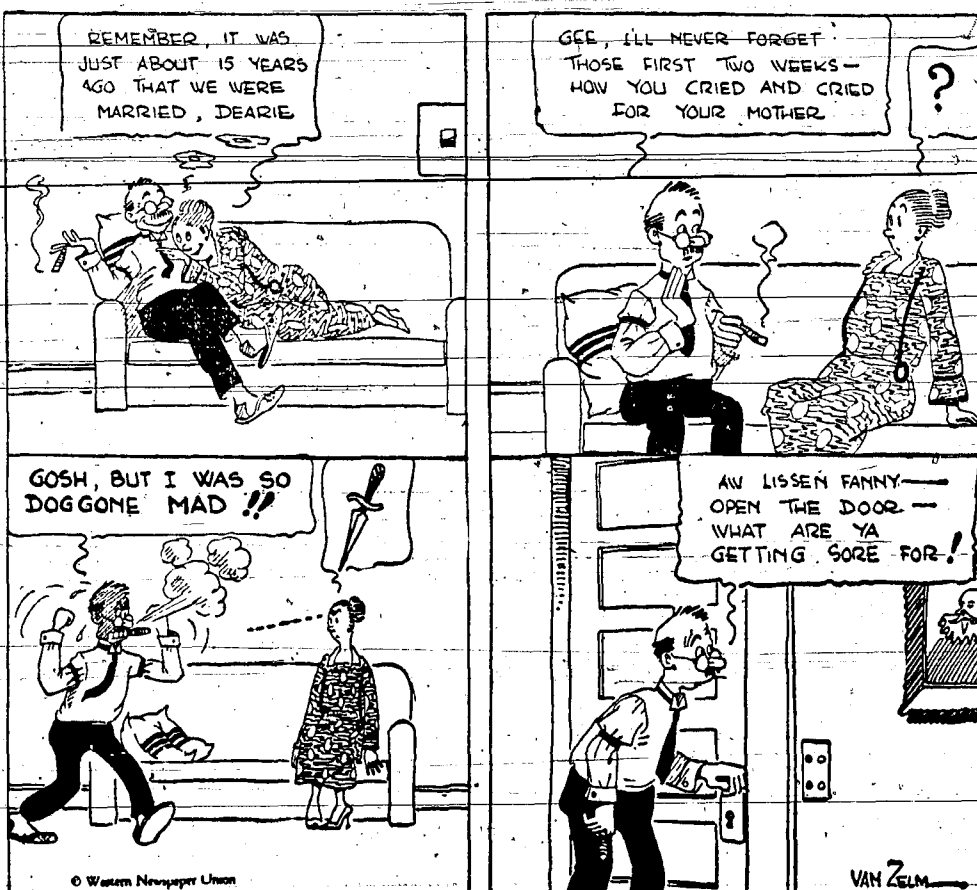

Our Pet Peeve

No Hope for This Guy

Now It's Fanny's Turn to Get Mad

Birds Are Indispensable

The tree sparrow feeds chiefly on weed seed; the Baltimore Oriole on caterpillars; the grackle is a "neutral bird," doing as much harm as good; the boblink is almost entirely an insect-feeder; there is no laboratory proof that the bluejay feeds exclusively on other birds or their eggs; the kingbird has fondness for honey; and so on down the list of the government's investigations of the food habits of birds. Take away the birds and the crop-growing fields and the orchards of this country would be so quickly overrun with insect plagues that their destruction would well nigh threaten famine.

These Hard to Find.

Habenarius are a genus of orchids, of which about eighteen species are natives of the eastern states, says Nature Magazine. They are partial to low, moist ground, so that the seeker must be willing to risk a wet-footed

search of our most forbidding, boggy and swamps. The blossoms are so exquisitely dainty that the finding of them is well worth all the trouble and discomfort.

Gallery Might Do.

A youngster with plenty of range, but little money, was inviting his best girl to go to see the stock company at a local theater. "Well, I'll get the tickets this afternoon," he said. "How's your hearing and eye-

sight?"

John Zimnoch, former national champion swimmer and one of the greatest water polo players this country has ever produced, has been engaged to coach aspiring swimmers at the Olympia Baths, Long Beach.

Catcher Commits Balk

An unusual play in baseball, a catcher's balk, occurred in a recent game between Little Rock and New Orleans. In the seventh inning, with Gould pitching and Nelderhorn catching, New Orleans filed the bases.

Mitze waited the pitcher out and drew the count to three balls and two strikes. When Gould started to pitch to the batter the three base runners moved simultaneously. Tucker was almost home when the ball neared the plate. Nelderhorn stepped in front of the plate and cut off the throw, trapping Tucker. Umpire McGowan called the play a balk and allowed Tucker to score and Mitze to take first base.

MAJOR LEAGUE CLUBS LOOK TO NEXT YEAR

New York May Win Title This Season, but Wait.

For a large majority of big league cities already, with the season half gone, it is "next year," so far as their pennant prospects are concerned. The world's series of 1923 is practically assured to the metropolis for the third straight year. And yet, with the New York teams admittedly the best in the country, they cannot hold together much longer, writes Louis Dougher in the Washington Times.

Take the Yankees, for instance. Their veteran hurling corps is about ready to be scrambled. This goes for every one of the first five men, all of

whom have been pitching for years and years.

Everett Scott is rapidly approaching the end of his string. So is Wally Schang.

Remove Schang, Scott and three veteran pitchers from the Yankees and

dope it out for yourself.

The Glants, like the Yankees, have a veteran hurling staff that is showing the signs of wear. Heine Groh's knee is troubling him so much that he is considering retirement. Dave Bancroft is now recovering from a breakdown caused by lack of physique to endure the strain. Irish Meusel is another veteran who has seen his best days.

In other words, though New York may wave the major league pennants again this year, it is anything but a certainty that they will have even one in 1924.

Sporting Squibs of All Kinds

Argentina wants to float a loan. Why not wait and negotiate with Firpo?

After all, Jess Willard, who says Firpo will crown Dempsey, is the only real authority in the matter.

On a golf course when a ball goes out of bounds, it is followed immediately by the owner's temper.

The Yankees have listed nine important football games for decision in their huge stadium next fall.

The English Derby day, the day of the great horse race at Epsom Downs, was established in the reign of George III.

There is nothing in the weather to bring a realization that the time for the first football practice is almost at hand.

Helen Filkey of the Blaine school, Chicago, recently established a world's record of 8 2/5 for the 60-yard two-foot hurdles.

West Virginia's football eleven is booked for two games in New York in the fall. The Mountaineers face Penn State on October 27 at the Yankee stadium, and Rutgers at the Polo Grounds on November 8.

After a period of 17 years, racing is to be revived in California November 3. Between 500 and 600 horses are listed to race at the new track near Tanforan.

There are two amateur champions of the world at 182 ballline billiards—Edgar T. Appleby of the United States and Theodore Moons of Antwerp, Belgium.

Figures compiled by the United States Lawn Tennis association show that in 42 cities in this country where records were kept 1,786,711 physics used public tennis courts during 1922.

Scholastic rowing is booming in Canada. The Malvern Collegiate of Toronto, Hamilton Collegiate, Upper Canada college and St. Catherine's high schools have organized for the sport.

John Zimnoch, former national champion swimmer and one of the greatest water polo players this country has ever produced, has been engaged to coach aspiring swimmers at the Olympia Baths, Long Beach.

ASK YOUR NEIGHBOR

Women Tell Each Other How They Have Been Helped by Lydia E. Pinkham's Vegetable Compound

Perryburg, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my sides all the time. I can't remember just how long I suffered, but it was for some time. One day I was talking with a lady I met on a car, and I told her how I was feeling and she said she had been just like I was with pains and nervous troubles, and she took the Vegetable Compound, and it cured her. So then I went and got some, and I certainly recommend it for it is good. Whenever I see any woman who is sick I try to get her to take Lydia E. Pinkham's Vegetable Compound."—Mrs. ADA FRICK, Route 3, Perryburg, Ohio.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

BATHE YOUR EYES

THE SAME OLD BACKACHE!

Does every day bring the same old backache? Do you drag along with your back aching and your head aching? Evening and you "all played out"? Don't be discouraged! Realize it is merely a sign you haven't taken good care of your kidneys. Take things easier for a while and help your kidneys with Doan's Kidney Pills. Then the backache, dizziness, headaches, tired feelings, and bladder troubles will go. Doan's have helped thousands and should help you. Ask your neighbor!

A Michigan Case

Geo. Halvorsen, 821 Myrtle St., Alpena, Mich., says: "I'm a miner, and my back hurts and at times it was lame and stiff. I was bothered with rheumatism and kidney trouble. I tried a lot of things, but nothing helped me. I was very irregular and weak and I had to get up two or three times during the night. I used Doan's Kidney Pills and they fixed me up in good shape."

Red Crown Is Fast "Gas"

WHEN you step on the accelerator you sense speed as you do in a spirited horse — "arin' to go." The speed is there if you want it. The desirable feature of potential speed is that a car capable of doing seventy miles an hour can do thirty with ease for hours.

Also, potential speed goes hand in hand with flexibility. With Red Crown in the tank you

Have a Live Engine

Your engine starts instantly, summer or winter—it gets away quickly — accelerates smoothly, and develops an abundant flow of even, smooth, rhythmic power — all without effort, no sputtering, no lagging.

If you don't know Red Crown get acquainted now, before cold weather is here. Red Crown turns winter driving from hardship to sheer pleasure.

LOCAL NEWS

Wonderful assortment of high top
shoes for the whole family.

E. J. Olson.

A son was born to Mr. and Mrs.
Lloyd Gierke Monday.

Mrs. Charles Schreck visited
friends in Bay City the first of the
week.

Mr. and Mrs. James Cassidy ex-
pect to leave Friday for Lapier on
business.

Charles Hazzard was called to
Millington Thursday owing to the
death of his father.

Miss Odie Sheehy returned yester-
day afternoon from a several weeks
visit in Detroit and Toledo.

Mr. and Mrs. Geo. N. Olson and
daughter returned Saturday from a
motor trip to Cleveland, Detroit and
other southern cities.

Thomas A. Adams who has been vi-
siting at the home of Mr. and Mrs.
Robert Robin returned to Bay City
Thursday. Mr. Adams is Mrs. Rob-
lin's father.

Mrs. Max Landsberg left Saturday
for Detroit to visit relatives moving
through with Mr. and Mrs. Ike Levene
of the Soo. Mrs. Landsberg is a sis-
ter of the latter.

Miss Edna Christenson, who has
been the guest of Miss Margaret Bau-
man for the past few weeks returned
to her home in Minneapolis, Minneso-
ta Saturday.

Mr. and Mrs. Thomas Woodfield
and daughter returned Tuesday to
Jackson after visiting relatives in
Grayling. While here they visited
Mrs. Woodfield's father, Mr. McIn-
ton at Mercy Hospital.

Mrs. Willard Campbell of Mr.
Plesant is spending a few days vi-
siting her parents, Mr. and Mrs. Fred
Hanson. Mrs. Campbell just returned
from the east where she with Mr.
Campbell spent several weeks in the
Adirondack Mountains.

Miss Ingeborg Hanson was in Vas-
sar Monday accompanying Miss Vir-
ginia Hanson to that place, who will
visit her grandmother Mrs. McIn-
ton before returning to her home in Cal-
ifornia. Miss Hanson also visited in
Saginaw on her return.

Mr. and Mrs. Emil Niederer and
two children, Miss Anna Peterson and
Axel Peterson drove to Cheboygan and
Mackinaw Sunday. At the former
place they took in the base ball game
played between the House of David
team and Cheboygan Stuckbakers.

Chris R. King, who has been busy
buying and shipping huckleberries this
season reports that up to today he has
shipped 3,872 cases. Each case con-
tained 16 quarts, making a total of
61,952 quarts. He says he paid out to
customers the sum of \$6,334.00.

The Board of Trade are guests of
Marcus Schaff today at the State Ho-
stry, Houghton Lake. The autos
meet at Shoppington Inn at 11:00
o'clock and will drive to the lake for
dinner after which the grounds will be
looked over and a general discussion
will take place.

The annual forty hour devotions
opened Sunday morning at St. Mary's
church and closed Tuesday evening.
services being held each morning and
evening of the three days. There was
a goodly number of the faithful in at-
tendance at all services. Fr. Bosler
was assisted during the time by Rev.
Fr. Flajole of Pinconning.

Mr. and Mrs. Johannes Rasmussen
of Cadillac are visiting at the home of
the latter's sister Mrs. James Jorgenson
and also among their old Gray-
ling friends. When Mr. and Mrs.
Rasmussen left Grayling over a year
ago they went to Denmark expecting
to reside there, but returned again
to Michigan after a couple of months
stay.

RED SQUIRREL ON BLACK LIST

IS DESTROYER OF GAME BIRDS
AND ANIMALS.

Cats Most Destructive to Home Birds.

The AVALANCHE is in receipt of
a five page typewritten letter sent
out by the Sporting Powder division
of the du Pont company which tells
of the depredations of the destructive
red squirrel to animals and game
birds. The article was written by
Dr. B. H. Warren, the noted natural-
ist and ornithologist of West Chester,
Pa. The circular tells of serious de-
struction this animal does to song,
ornamental and game birds and small
animals.

A great mass of evidence has been
collected against the red squirrel
showing that his depredations are
such as to make it necessary to keep
down his number if insectivorous
birds are to be allowed to flourish
and help out in their useful work.

The late John Burroughs wrote of
the red squirrel: "Nearly all the
birds look upon it as their enemy and
attack and annoy it when it appears
near their breeding haunts. Thus I
have seen the pewee, the cuckoo, the
robin and the wood thrush pursuing
it with angry voice and gestures. If
you wish the birds to breed and thrive
in your orchards and groves, kill ev-
ery red squirrel that infests the
place."

There is no doubt but that all

GRAYLING GIRL IS PINCHED IN GAYLORD

AUTO ACCIDENT REVEALS FACT
SHE HAD NO DRIVERS LI-
CENSE.

Florence Merrow, a school girl of
this city, was arrested for driving
without an operator's license, follow-
ing an auto accident about six miles
south of Gaylord, Sunday last.

She relates that while enroute to
Grayling at about six o'clock Sunday
afternoon she met a car, that was be-
ing driven by Mrs. Durfee of Gaylord
about six miles south of Gaylord at a
place where there are fences along
each side of the highway. She says
that Mrs. Durfee was taking so much
of the road that she was forced to
one side where her car scraped the
fence for about 15 feet, when finally
the loose gravel caused her car to
switch toward the center of the high-
way just as the Durfee car was about
to pass. There was a crash and in-
stantly both cars were put
out of operation. Mrs. Durfee was
driving a Ford Sedan, and when the
accident occurred, said Miss Merrow,
that lady said, "Well, what did you
do that for? Don't you know I am a
sick and nervous woman?" "Well, if
you are a sick and nervous woman!
why are you driving a car?" replied
the young lady. Florence said that
"she told her a few things."

It wasn't long after Mrs. Durfee
had gone before a State police came
along and took the young lady before
the justice. She had no operator's
license and for that offense was re-
quired to pay a fine of \$10 and \$3.85
costs.

The "prisoner" told the court that
she didn't have a cent but knew she
could borrow it from Dr. Saunders.
She didn't find the Dentist in his of-
fice so appealed to Dr. Harris where
the necessary dough was raised and
Miss Florence soon dismissed. Mrs.
Durfee has filed claim for \$43.75 for
damage done to her car. Miss Mer-
row thinks she had a pretty rough
day of it.

that has been said in the article by
the Warrent about the destructiveness
of the red squirrel is true. However
we believe that the destruction of
song and ornamental birds by the red
squirrel is far less than the destruc-
tion done by the common house cat.
This animal too, we would suggest,
should be placed upon the tollgates
for eradication or either be made to
wear a bell by which birds may be
warned of its approach. A young
bird, just learning to use its wings
has a poor chance in some neighbor-
hoods because of the presence of
cats that are on the watch to
kill them. Kill the red squirrels and
find some way to protect the birds
from growing cat also.

READY FOR MUSIC CLASSES.

MRS. JOHN B. REDHEAD DEAD

REMAINS TO BE TAKEN TO PON-
TIAK FOR BURIAL FRIDAY.

A shock to many was the news of
the sudden death from apoplexy of
Mrs. John B. Redhead, that occurred
at her home on the North Branch of
the AuSable Monday morning where
Mr. and Mrs. Redhead and their es-
timable family have resided for forty
years. Mrs. Redhead seemed to be
in good health and her sudden pass-
ing at 2:30 o'clock Monday morning
was a sad blow to her family.
Mrs. Redhead was 63 years old and

was born in New York State.
The remains were brought to Gray-
ling and tomorrow morning at 10:00
funeral services will be held and the
remains taken on the afternoon train
to Pontiac for burial.

Beside her husband, the deceased is
survived by several sons and daugh-
ters.

MISS VERNIA BIGGS AND FOR-
REST BARBER WED.

The marriage of Miss Vernia Biggs,
only daughter of Mr. and Mrs. Geo.
Biggs to Mr. Forrest Barber was
solemnized in West Branch yester-
day afternoon at one o'clock at the
parsonage of the M. E. church of that
city. Miss Mildred Corwin and Men-
no Corwin, cousins of the bride wit-
nissed the ceremony, following which
the happy wedded couple boarded the

train on their honeymoon trip which
takes them to Detroit, Chicago, Buf-
falo, Niagara Falls and other points
of interest. West Branch was the
hometown of Mr. Barber hence
the ceremony being performed there.
Mrs. Barber for some time was
book-keeper in the offices of Sorenson
Bros. later attending Mt. Pleasant
Normal fitting herself for teacher-
teaching in the Cobb school of Maple
Forest township last year. Mr. Bar-
ber is employed in the M. C. R. R.
roundhouse, where he has worked for
many years.

On the return of the bride and
groom from their wedding tour they
will be at home to their friends in the
Jamieson house on McClellan St.
Both are well known and popular
among their friends and are extended
congratulations and best wishes of
many.

These prices stand good until our next bulletin is issued next week.

SORENSEN BROTHERS

The Home Of Dependable Furniture.

Suction Soled gym shoes at \$1.35 and up at E. J. Olson's.

Charles Tremble has been visiting his daughter, Mrs. Guy Peterson of Royal Oak and Mrs. Warren of Detroit and their families.

Clarence Johnson arrived in Grayling Tuesday from East Jordan to spend a few days visiting his parents, Mr. and Mrs. C. B. Johnson.

Mr. and Mrs. Grant Thompson (Lacaille McPhee) are rejoicing over the arrival of a son, James Angus, born Friday at Mercy Hospital.

Mrs. James Reynolds and son James and Mr. and Mrs. Harry Reynolds are taking in the Charlevoix county fair at East Jordan this week.

Ray Owens of Detroit is in the city visiting his father George E. Owens and other relatives, also looking after his father's real estate interests.

Time to begin making your Christmas gifts. We can show a fine line of stamped and goods at The Gift Shop.

Mrs. H. W. Wolff and Mrs. Marie Wolff have closed their summer home at Lake Margrethe and expect to leave tomorrow for Chicago.

Miss Mae Richardson, a former teacher in our schools is spending a few days among Grayling friends. Miss Richardson will attend Ypsilanti Normal this year.

Miss Marcella Sullivan was hostess to twelve of her friends Thursday evening of last week to honor her birthday anniversary. Mrs. Sullivan served a delicious chop suey lunch at 10 o'clock.

Mr. and Mrs. Olaf Michelson entertained twenty-four ladies and gentlemen at dinner Tuesday evening at their summer home at Lake Margrethe. The guests were served at small tables in the centers of which were crystal vases filled with flowers.

After dinner the guests enjoyed bridge. High scores were held by Mrs. Morfit, Mrs. Pool, Holger Peterson and Charles Tremble.

Leo and Einer Jorgenson and Mr. and Mrs. Johannes Jorgenson returned Monday night from a motor trip which took them to Grand Rapids, Flint, Monroe and other cities in Michigan. At Grand Rapids Leo Jorgenson attended the annual convention of the Red Arrow Division held last week. Mrs. Jorgenson, who accompanied them to Monroe remained to visit her daughter Mrs. Ernest Duvall.

Little Miss Patricia Woodruff, daughter of Mr. and Mrs. Frank Woodruff, of Detroit has the honor of having won the grand championship prize in the Better Babies Contest at the State fair. Her photograph together with the announcement appeared in the Detroit Free Press last Sunday. Mr. Woodruff is the brother of Mrs. Clarence Brown and a former Grayling boy. The little girl who is 15 months old was graded as 99.7 per cent perfect.

Earl Koble and family have gone to Midland to reside.

Mr. and Mrs. Clarence Brown are attending the Charlevoix county fair at East Jordan this week, the guests of the Ed. Strahl family while there.

Miss Arla Ewalt entertained eight of her girl friends at her home Saturday afternoon in honor of her 12th birthday. The rooms were prettily decorated with autumn leaves, the same effect being carried out on the lunch table with dainty place cards and boxes filled with candy at each place. Games were enjoyed and a dainty lunch was served.

Lee Place, who with his family are visiting Grayling relatives, went to Bay City early last week to meet his mother, Mrs. Elizabeth Place, who came by rail from Los Angeles, Calif., while her son and family made the trip by motor. Mrs. Place and son spent several days with old friends in Rose City and West Branch having then former residents of the latter place for many years.

Saturday afternoon Mr. and Mrs. O. W. Hanson and T. W. Hanson gave a luncheon and dancing party for the pleasure of the Misses Ella and Margaret Hanson and Virginia Hanson.

There were thirty-three girls and boys who sat down for luncheon at the Hanson Dining Hall. After this the guests gathered at the R. Hanson cottage where Schram's Orchestra furnished music for dancing until 11 o'clock. It was one of the loveliest parties of the season and will always be remembered by the younger set.

Ernie Babbitt is feeling pretty good over being the possessor of an unusual "gun" that was presented to him by Mr. Harry Webster, one of the proprietors of the J. L. Hudson store in Detroit. The gun is a combination of a double barrel shot gun and double barrel rifle. There are two twelve gauge shot gun barrels and two 30-30 gauge rifle barrels. The gun is a product of the famous Krupp works of Essen, Germany. The gun is very handsome and looks as if it had good shooting qualities. Mr. Webster is a member of the Rainbow Club of which Mr. Babbitt is the caretaker.

The residents of St. Helen were somewhat excited Thursday morning of last week when a large airplane swooped down over the village, circled around Lakeview Inn, the St. Helen Shooting Club and other points of interest on Lake St. Helen and the outlet of the Au Sable River. The airplane was at times high in the air, while again it came quite close to the surface of the lake. After about an hour spent in maneuvering over the lake and adjacent land it winged its way southward without making a landing. It was ascertained that the airplane was sent to St. Helen by the (Hunting, Rod & Gun Club of St. Helen, a recently incorporated hunting club, for the purpose of making a number of aerial photographs.

Alfred Berggren, George Collen and Ray Peterson were arrested by Sheriff Jorgenson says "look after your auto and the Sheriff Wednesday night for running their cars without proper lights."

Mr. and Mrs. George Vindastyne of Detroit have been the guests of Mr. Thursday morning and played golf, and Mrs. John Q. Roberts of Maple They were let off for the first offense.

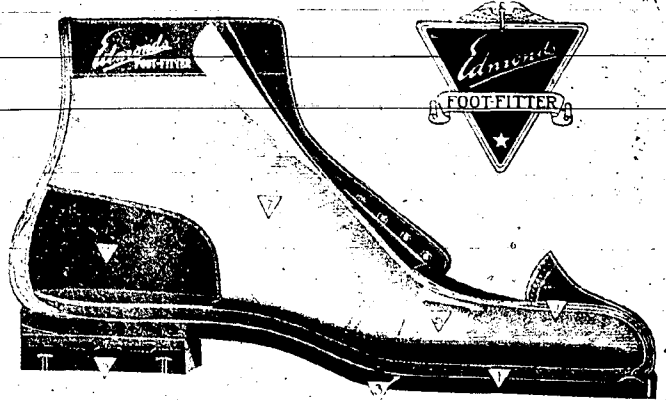

upon payment of costs. Sheriff Jorgenson says "look after your auto and the Sheriff Wednesday night for running their cars without proper lights."

Mr. and Mrs. George Vindastyne of Detroit have been the guests of Mr. Thursday morning and played golf, and Mrs. John Q. Roberts of Maple They were let off for the first offense.

Edmonds Foot-Fitters

The greatest dress shoe value in
America at **\$6.50**

Oxfords or Shoes.

Seven Points of Supremacy

1. The sole leather used in "FOOT-FITTERS" is of the best quality obtainable. Even the insoles are cut from standard goatskin leather.
2. "FOOT-FITTERS" are the only shoes in the world having full length vamp and sole leather box toes. This feature prevents ripping at the tip and makes a smooth outer and inner surface.
3. The insoles are shoulder channelled so that they fit tightly against the outside. There is no need of room for a cork filler. A small piece of duck is used to prevent squeaking.
4. The calf skin inside counter pocket is of great value, for it saves the wear on the heels. There is no rough surface to rub against.
5. "FOOT-FITTERS" heels are 1/2 inch longer than generally used. They give additional support to the arch and increase the comfort and wear of the shoe.
6. The vamp is reinforced with x or duck. This absorbs the moisture from the foot, this keeps the vamp from cracking and holds the shoe in shape.
7. Edmonds "FOOT-FITTERS" shoes are called "FOOT-FITTERS" because they fit the foot. "FOOT-FITTERS" built on combination lasts they support the foot like a doctor's bandage. "FOOT-FITTERS" give Comfort, Service and Appearance.

Tennis slippers 75c and up.

Suction soled gym shoes \$1.35 and up.

The most complete line of High Tops and Shoe Packs in the state.

Come and look them over.

E. J. Olson

Shoe for everyone for every occasion.

Michigan Happenings

Colonel B. Clemens of Milwaukee, Wis., was elected president of the Thirty-second Division Veterans' association. Brigadier General Guy M. Wilson, Flint, Mich., was chosen first vice-president and Milwaukee was selected as the place where the 1924 convention will be held at a date to be chosen by the executive committee, at its convention in Grand Rapids. Other officers elected were: Colonel George F. O'Connell, Madison, Wis., second vice-president; Lieutenant-Colonel Leroy Pearson, Lansing, treasurer.

The Michigan grand lodge, Knights of Pythias, in golden jubilee session at Mt. Clemens, elected the following officers: Grand chancellor, Fred D. Vos, of Grand Rapids; grand vice-chancellor, Ray O. Brundage, of Kalamazoo; prelate, William C. Wetmore, of Jonesville; K. R. S. Will E. Hampton, Ann Arbor; master of exchequer, Harvey N. Clement Greenville; master at arms, H. E. Vroman, Wyandotte; inner-guard, Thomas P. McKinnie, South Haven; outer-guard, A. L. Fitch, Charlevoix.

Will S. Purple, soul saving sheriff of Emmet County for nine years, advocate of jail reforms and consistent supporter of the Golden Rule in his relations with criminals, is dead. Shot in the head and through the body, he was instantly killed in a gun duel with Joseph Grosskopf, 35, on Grosskopf's farm near Harbor Springs. Grosskopf lies near death in the Petoskey hospital wounded in the chest, abdomen, shoulder and left hand by bullets from the sheriff's gun.

Numerous protests are being filed with the department of conservation by northern Michigan sportsmen's clubs against the state making additional plantings of fish in certain northern streams. This unusual condition developed as the result of the enactment of a law last winter by the legislature, which prevents land owners, controlling both sides of a stream stocked by the state, from fishing in the stream if the public is denied fishing rights.

Wendell Evans, country caddy at the links of the Bay City Country Club, won the city golf title from a large field by defeating Fred D. Johnson, veteran of several state matches. In the final match last week, Evans had previously defeated several of the ranking players of the city. Two other winners, Eugene Hand, 11, and Al Dindale, 16, placed near the top, the latter being low medalist in the tourney.

The new \$125,000 Pennock hospital, at Hastings, said to be one of the finest of its kind in Michigan, outside of Grand Rapids and Kalamazoo, has been opened. The building was erected through donations made by merchants of the city. The new structure is of concrete and hollow tile, brick, 60 by 130 feet in size, and is four stories high. It has 14 private rooms and 4 wards, 2 of 4-bed size and 4 of 2-bed size.

The state of Michigan recently paid a debt contracted nearly 10 years ago. Early in 1914, Peter Szumla, employed by the I. Stephenson company, of Detroit, was killed. His wife, on behalf of herself and her two children, entered a claim from Poland where she was living. The Michigan department of labor and industry recognized the claim, after nearly 10 years of litigation carried on by an insurance company.

At the opening of the public schools at Grand Rapids, William A. Groesbeck, superintendent of schools, announced a ban on extra holidays. All schools, he directed, shall be kept in session every day and for the full number of hours each day during the academic year. The schools will not be dismissed for the West Michigan State Fair, thus breaking a precedent of many years.

Workmen exposed to storms on orders of their employers can collect from the employers if their exposure results in injuries, the state insurance commission decided. The decision was made in the case brought by John Gunder, Grand Rapids, against the Grand River Sand and Gravel company and the Travelers Insurance company.

Merton Davis, 54 years old, farm hand employed by Charles Skierman, near Pottsville, was killed instantly when he fell from the top of a 20-foot ladder to the barn floor.

Declaring that the operation of interurban freight trains through the business district of Battle Creek has become a nuisance, Mayor Charles C. Green instructed City Attorney John Weger to investigate action necessary to eliminate freight trains in city streets during rush hours of the day.

Of 231 applicants for automobile licenses, only 85 or 36 per cent passed the second day of the new revised police examinations at Detroit.

Authority was granted to the Western State Normal school at Kalamazoo to improve the barracks at that place so they can be used by the students this fall. Superintendent of Public Instruction, Thomas Johnson, stated that if the building could be placed in condition to use it would provide room for about 150 students.

George W. Cook, of Flint, was elected president of the Michigan State Bar association, succeeding George E. Wheeler, of Tox, at the convention in Grand Rapids.

Plans for a city-wide observance of the 138th anniversary of the adoption of the constitution of the United States, to begin Monday, September 17, and to continue for one week, are in process of elaboration by a special organized committee comprising representatives of virtually all of Detroit's civic, educational, religious, patriotic and social welfare bodies. Foremost among the purposes of the observance is the popularization of the principles upon which the statesmen of the constitutional convention in 1787, erected the American form of government.

Gov. Groesbeck is personally directing the reconstruction work by state prisoners on the nine miles of the Dixie Highway between Flint and the Genesee-Oakland line. About 265 prisoners are employed on the job. The work has been under way for nearly a month, yet not quite a mile and a quarter has been completed. The Governor relieved the Highway Department's district engineer assigned to the work and four other department men, replacing them with others to whom he gave instructions to speed up.

Governor Groesbeck will call a special session of the legislature some time in November, for the purpose of taking up the question of legislative reapportionment, which under the constitution, must be fixed this year for the next 10-year period. Although there has been no formal or official announcement of his intention to call the lawmakers into extraordinary session, it was learned from reliable sources here last week that the governor practically has decided upon that course.

A profit of \$14,000, although it has been in operation a little over a month, is the record made by the state-owned automobile ferry at the Straits of Mackinac, according to Frank P. Rogers, state highway commissioner, who was at Iron Mountain on a tour of Upper Peninsula roads. The ferry cost \$18,000. It is expected the close of navigation will see the project paid for and that there will be some profit to carry over to next spring. Mr. Rogers said.

Suit to bring about an adjustment of the disputed Michigan-Wisconsin boundary line probably will be instituted by Michigan. Andrew P. Dunphy, attorney-general, said Mr. Dunphy visited the territory in question last week. The land in question is said to contain valuable tracts of iron ore. It includes some territory between the head waters of the Saginaw and the mouth of the Montreal River, several islands in the Menominee River and islands in Green Bay.

Superintendent of Police A. A. Carroll, of Grand Rapids, has enlisted the support of Superintendent of Police William P. Riedel, of Detroit, president of the International Association of Chiefs of Police, U. S. Representative Carl E. Mapes and Postmaster General Harry S. New, in his campaign to obtain national legislation restricting interstate shipment of pocket weapons.

Unless the city commission of Port Huron appeals to the State Supreme Court from the decision of Judge Harry J. Dineenman, Port Huron electors will have opportunity to vote on the adoption of the new revised city charter, which provides a commission manager form of government to replace the present city commission, composed of a mayor and four commissioners.

State-owned cement and fertilizer plants are feasible, according to the preliminary findings of R. A. Smith, state geologist who recently undertook an investigation at the order of the state administrative board. There are lime deposits on state owned land near Wolverine. There are also many deposits in the Charlevoix and Alpena districts.

Half of the \$2,000,000 building program begun by the Michigan Agricultural college last spring will have been completed by early fall. Two new buildings, home economics and library, will be ready for use shortly after school opens.

Major General Harry C. Hale, commander of the staff, witnessed the final review of C. M. T. C. at Camp Custer, after which the students broke camp.

Fifty crosses, thought to have been placed by the Ku Klux Klan have been tearing the little children of Berkley.

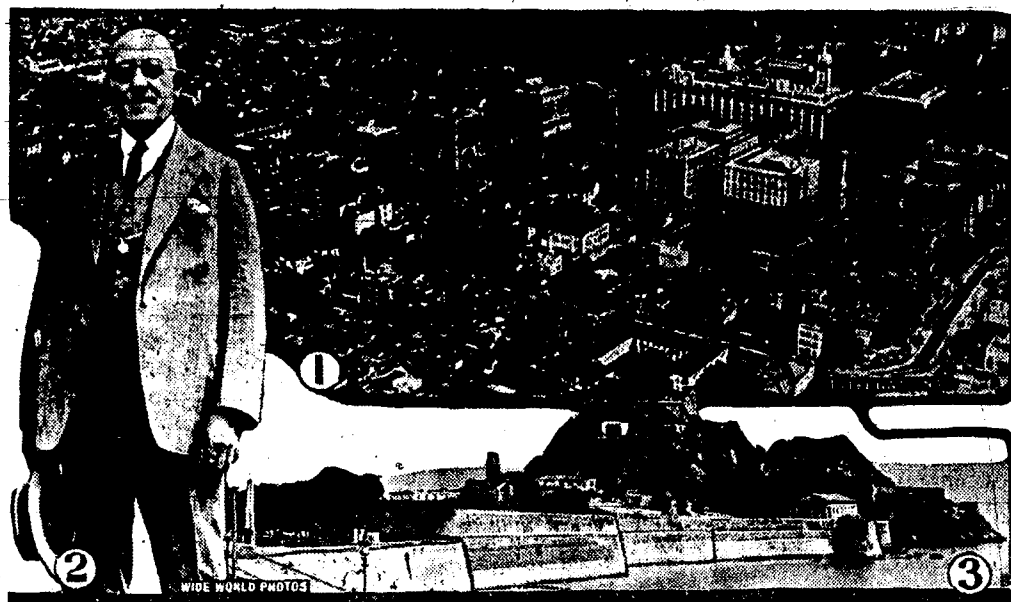

The fifty-fourth reunion of the fifth Michigan Infantry G. A. R. was held in Mt. Clemens.

Three prominent Flint attorneys were killed and two others injured when their automobile met head-on with a Michigan Railway interurban car in Mt. Morris.

The \$6,000,000 bond issue voted for street railway extensions last spring, approximately \$1,000,000 of which already has been expended in anticipation of the sale of the securities, was declared illegal Wednesday by Corporation Counsel Richard I. Lawson of Detroit.

James E. Cook, a farmer living near Owosso, tells of a homing pigeon that is insisting on making its home in his house. The bird flew into an open window. After it had been fed for three days it was set free, but it again returned to the farm house. A band around its leg reads: "33-7850 Central Detroit."

Announcement by Secretary of State Charles DeLoach of his candidacy for the Republican nomination for Governor in next year's primary is expected in the next few weeks.

1—Aerial view of the business district of Tokyo, destroyed by earthquake and flames. 2—Congressman H. C. Garber, the only Republican representative elected from Oklahoma to the Sixty-eighth congress. 3—Ancient fort of Corfu which the Italians shelled when they seized that Greek island.

NEWS REVIEW OF CURRENT EVENTS

Japanese Disaster Probably Is Unequalled in Loss of Life and Property.

TOKYO, YOKOHAMA, IN RUINS

America Leads in Relief for the Stricken Nation—British Fleet Ready to Back League of Nations Against Italy—Rumor, Passive Resistance Collapses.

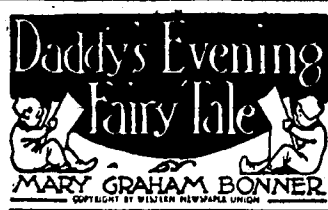

By EDWARD W. PICKARD

HITLER'S disaster, which has been taken Japan, unless present reports and estimates are correct, will be unequalled in the history of the world. Shaken to pieces by a great earthquake and a series of tidal waves, the city of Tokyo, the capital, the largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Yokohama, the second largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kobe, the third largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the fourth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the fifth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the sixth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the seventh largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the eighth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the ninth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the tenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the eleventh largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the twelfth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the thirteenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the fourteenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the fifteenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the sixteenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the seventeenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the eighteenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the nineteenth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the twentieth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the twenty-first largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the twenty-second largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the twenty-third largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the twenty-fourth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the twenty-fifth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the twenty-sixth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the twenty-seventh largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the twenty-eighth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the twenty-ninth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the thirtieth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the thirty-first largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the thirty-second largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the thirty-third largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the thirty-fourth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the thirty-fifth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the thirty-sixth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the thirty-seventh largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the thirty-eighth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the thirty-ninth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the fortieth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the forty-first largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the forty-second largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the forty-third largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the forty-fourth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the forty-fifth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the forty-sixth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the forty-seventh largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the forty-eighth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the forty-ninth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the fiftieth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the fifty-first largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the fifty-second largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the fifty-third largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the fifty-fourth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the fifty-fifth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the fifty-sixth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the fifty-seventh largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the fifty-eighth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the fifty-ninth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the sixtieth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the sixty-first largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the sixty-second largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the sixty-third largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the sixty-fourth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the sixty-fifth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the sixty-sixth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Sakai, the sixty-seventh largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Osaka, the sixty-eighth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Kyoto, the sixty-ninth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the seventieth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Fushimi, the seventy-first largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Uji, the seventy-second largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Maibara, the seventy-third largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Muroran, the seventy-fourth largest, the most important, the most beautiful of the Japanese empire, has been destroyed. The city of Nara, the one hundred and one hundred

Entire Town of Elcho Lives in This Hotel

Elcho, Wis., boasts of the largest hotel and community center in the world in proportion to its population. Last February the town was wiped off the map by fire, not a single house escaping. Charles W. Fish, president of a lumber company, decided to build a hotel and community center, and within 90 days had erected a building occupying one block and containing a movie theater, bank, drug store, barber shop, general store and a hotel consisting of 60 rooms and equipped with every modern convenience. The entire population lives at this hotel, and the only other building in the city is the community center, which everyone is welcome to join.

THE DUCKS

"Quack, quack," said Mrs. Duck.
"Quack, quack," said Sir David Duck.
"Quack, quack," said the little Ducklings.
"Now you know how you must sleep, don't you, precious ducklings?" asked Mrs. Duck.
"Yes, Mother Duck," answered the little ducklings. "Yes, quack, quack, we know."

"And we will show you, Mother Duck, so you will see that we know."
"That is right, quack, quack," said Mother Duck.
"That is right, quack, quack," said Sir David Duck.

So the little ducklings showed Mrs. Duck and Sir David Duck and all the other ducks how they would be able to sleep in the water, which was what Mother Duck wanted to know.

They showed her how they would hold one foot up under them and with the other they would keep their same position in the water.
That is, they would paddle with that one foot even as they slept—it was very simple and easy to do after a short time and they would keep in the same place that way. Of course, if they were to learn to do so, for if it was well to learn all duck lessons, for if ever they should be floating in the open in a large body of water then they would need to know this lesson.

"Quack, quack," said Mother Duck, "you all know your lesson well, and it delights Mother Duck's heart."

"You do, indeed, know your lesson well," said Sir David Duck. "You are good, bright ducks. No one could complain of you."

"I should say not," said Mother Duck. "No brighter ducklings ever lived."

"Every time I see you waddle I think of how beautiful you are."

"Ah, yes, you're mother's beautiful ducklings. And though some may say

"Mother's Beautiful Ducklings," you're not beautiful, I think you are. "And that is all that I care about. What do I care what some other creature thinks? I don't have to carry their thoughts about with me."

"I have my own thoughts, and my own thoughts tell me that you are beautiful."

"And these thoughts of mine are what I keep with me. Yes, quack, quack, my ducklings are very beautiful."

"You are smart, too. I'm indeed proud to think how you have learned the lesson of sleeping in the water so to keep in the same place even as you sleep."

"I am proud to think of how very very quickly you have learned this lesson."

And Mother Duck looked very proud and happy. Sometimes she was called Mother Duck and sometimes Mrs. Duck. Of course Mrs. Duck was what she had been called but she quacked so proudly about the beauty and the brightness of her children that most of the barnyard creatures, as well as her own ducklings, began calling her Mother Duck, too.

"Grunt, grunt," said Sammy Sausage, "you may think you're very bright and a very good mother, and that your children are very bright and very good children, but I think all of you are absurd."

"Quack, quack, what in the world, or the barnyard, do you mean?" asked Mrs. Duck.

"I cannot understand it. Not for a moment can I understand your strange speech."

"Well, I suppose if you understood it for a moment you would be able to understand it for a longer time, too," said Sammy.

"I will explain to you, however. I do not think you're bright and I do not think you're a good mother. Neither do I think your children are bright, nor do I think they're such good children."

"I should think you'd teach them that the most important thing in the world is food and that the brightest thing a creature can do is to grab all they can."

"And if the children were bright of their own accord they would be practicing such lessons instead of the absurd one you've just taught them."

"Quack, quack," said Mother Duck. "I'll have you know, Sammy, that I do not teach my children to be pigs. I teach them to be ducks, and ducks they are, I'm thankful to say."

"You poor duck, how foolish you are," growled Sammy. "But I am glad that there are people with little sense—it leaves more food about for those who think of it appreciatively."

Force Babies to Eat Much.

In some African tribes when the baby is a few months old it begins to be fed on a preparation of congee meal. The mother fills her hand with the meal, pushes it into the baby's mouth and holds its nose until all the food is swallowed.

Balkan Women Wear Trousers.

In the Balkans, where women tend goats and cattle in the mountain, it is necessary for them to wear trousers; skirts would be too cumbersome among the rocks.

A Howler.

From an examination in a Bombay school: Question—Give the names of the parents of Jonah. Answer (boy of thirteen)—He had none. He was brought up by a whale.

New Colors in Millinery;

Appealing Styles in Coats

In all the colors of the autumn woods and in many shades not familiar to us on land or sea, the fall styles in millinery have made their appearance and now await the final decision of popular choice. Shapes are apparently in a period of transition from the omnipresent jockey of late summer to the slightly drooping and off-the-face types such as are pictured in the models shown here. There is also a tendency toward large

horns as the favored trimming on dress hats of black satin. Where embroidery is used as the main decoration of the hat, it may follow the inspirations of China, Persia or Egypt with equal propriety, since all of these sources have been called on in designing new fall styles.

Many lightweight coats for early fall wear, as well as heavy coats for the winter, have one thing in common which definitely places them

Foretaste of Autumn Millinery.

er crowns and somewhat narrower brims than those in favor during the past few weeks.

Shirred velvet, in a beautiful golden brown, forms the facing of the model shown at the top of the group. The crown is covered with black satin and trimmed with a jet ornament and an ostrich fancy which falls over the shoulder. The model at the extreme right shows an attractive tricorn shape made of shirred and corded satin and trimmed with a moult of burnt goose. The little hat shown in the center borrows from both summer and fall styles. The daytime brim is faced with satin and bound with narrow velvet ribbon and combined with a cap crown of diverse material.

Two extremes of the style are shown in the coats pictured here. That at the left is designed for general wear and is made of soft tan wool

Two Styles in Winter Coats.

ming is a collar of narrow ribbon and a huge bow of double-faced satin and shirred ribbon. The hat in the oval pictures a smart little shape in satin solid with a draped crown and braided brim. Its only trimming is an arrow of brilliants.

Colors for fall include all the wood tones of brown, as well as a number of new reds and greens. Chenille embroidery on tan and mushroom shapes is a very late addition to the mode and is particularly attractive on a background of black or subdued color. Ribbons and feathers are dividing

Sleeves May Be Any Length. Sleeve lengths vary according to the type of garment, the Jacquette usually electing the long or three-quarters sleeve, while costume blouses have a long, tight sleeve. Dressy overcoats feature the sleeveless mode. Although every season brings the question, "Should sleeves be long or short?" this season brings no uniform answer. Sleeves may be of any length. It is said, all lengths being fashionable, although each depends on the type of blouse.

Autumn Brings Satin Frocks.

The approach of autumn brings into the foreground smart frocks of soft black satin. One unusually attractive model has a deep collar and wide cuffs of tuckled net with Irish lace insertion. Another boasts a collar of the sheerest ecru batiste scalloped and edged with fine Valenciennes.

Frock of Ribbons.

Very wide metallic ribbon is joined together with fagoting to make a dinner frock for a young girl.

WRIGLEYS

Take it home to the kids. Have a packet in your pocket for an ever-ready treat.

A delicious combination and an aid to the teeth, appetite, digestion.

After Every Meal

Winthrop Tapered Asphalt Shingles

The heavy butts of these shingles are built up of extra coats of everlasting asphalt.

They lie close and flat—are best for laying right over an old roof.

Three non-fading colors of crushed slate surfacing, permanently imbedded in the asphalt.

They Last and Stay Beautiful

Retail lumberman have—or can get for you—these shingles, made in Michigan for Michigan climate.

See them at your lumber yard today or write us for sample and information.

BIG TELESCOPE FOR RUSSIA

Instrument Manufactured in British Factory Weighs Nine Tons and Is 45 Feet Long.

In view of the present condition of Russia, it is rather surprising to find that the Soviet government has ordered a telescope which is one of the largest in the world. This telescope has just been constructed in a British factory, and will shortly be transported to an observatory on the shores of the Black Sea. It weighs about nine tons, and the inside length of the tube is 45 feet. Heavy as the telescope is, it is so admirably fitted that it can be moved by cranes, means as easily as if it were a small portable apparatus. The push-button system of control has been adopted, so that all the operator has to do to direct the telescope to any part of the heavens is to press certain buttons. A second telescope, almost as large as this, is being made at the same British factory for another observatory in Russia. So diligent is the work on these giant instruments that about three years are occupied in designing and constructing them.

Secrecy Impossible.

"Do you believe in secret diplomacy?"

"No, sir," replied Mr. Meekton; "it isn't practical. I'd like to see 'em keep anything from Hentley, if she makes up her mind to find out just what they're talking about."

Every table should have its Daily Portion of Grape-Nuts

There's a Reason

Planning to Get Out the Woman Vote

The women political leaders are coming to the fore and are canvassing the country from coast to coast to get a line on the political views of the women voters. Mrs. Elliot Chestnut of Atlanta, Ga., director of nine southern states and the District of Columbia, visited headquarters in Washington with the exhibit which she will use at county fairs in the various states this fall to interest women in voting.

TO SUCCEED HIS FATHER

Portrait of Jai Dastur Cansell Pavry, A. B., son of the high priest of the Parsis, Bombay, India, who is now at Columbia university. He has won numerous prizes and scholarships from many of the famous schools of Europe and graduated with honors from the Bombay university in 1920. Mr. Pavry was to proceed to England to compete for the Indian civil service examination as well as to be called to the bar, but sacrificed this program at the earnest request of some of the leading Parsis of Bombay who persuaded Mr. Pavry to qualify himself for the position of the high priest and thus walk in the footsteps of his great father while the latter retires. At present he is working for his doctorate and will finish his studies for the Ph. D. degree at Columbia in 1924.

SWEM IS CHAMPION

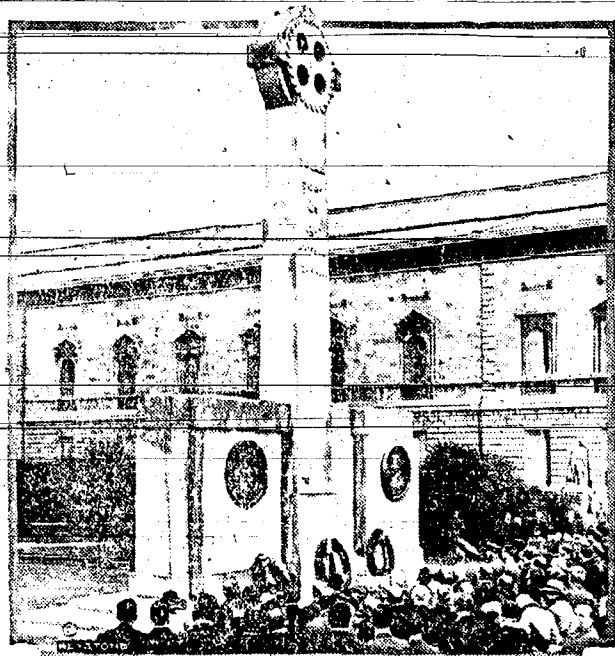

Here is Charles L. Swem, former stenographer to President Wilson, with the silver loving cup emblematic of the shorthand reporters' championship of the country, which he received at the National Shorthand Reporters' convention in Chicago, when he took down 1,403 words of dictated testimony in five minutes and made only nine errors.

POTTSVILLE'S PRIDE

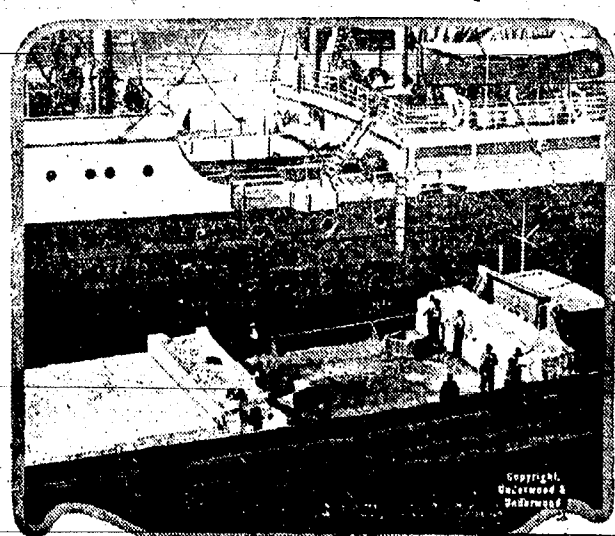

This pretty young lady of Pottsville, Pa., was selected to represent that city at the Atlantic City pageant.

Free State's Martyrs Honored

While hundreds looked on, President Cosgrave of the Irish Free State unveiled this cenotaph in Dublin, Ireland, erected to the memory of Michael Collins and Arthur Griffith.

Cheap German Bricks Imported

This shows the first of a series of shipments of bricks from Germany, that are manufactured at a cost very much lower than is possible in America, being loaded on board a barge from the S. S. Westphalia at New York. Due to the strike of brickworkers in this country at the present time, the German shipment was rushed.

SHORT SQUIBS

The sixteen-inch guns on the battleship Maryland cost \$65,000 each. Every man has his price, but it isn't every man who has his market. Japanese in the United States now outnumber the Chinese nearly two to one.

If all the people on earth could sleep closely together on the ground, they would cover an area of approximately two square miles.

The world has little use for the man who tells it a disagreeable truth. You will never obtain peace of mind from people who give you a piece of theirs.

Vacuum cups intended to grip a road surface are included in a recently patented automobile tire chain. Of German invention is a three-wheeled taxicab with the motor mounted directly over the front wheel.

Force Babies to Eat Much.

In some African tribes when the baby is a few months old it begins to be fed on a preparation of congee meal. The mother fills her hand with the meal, pushes it into the baby's mouth and holds its nose until all the food is swallowed.

Balkan Women Wear Trousers.

In the Balkans, where women tend goats and cattle in the mountain, it is necessary for them to wear trousers; skirts would be too cumbersome among the rocks.

Juvenile Curiosity.

Mother—Yes, darling, fish go about in schools. Why? Bobby—I was just wondering what school does if some fisherman happens to catch the teacher. Boston Transcript.

A Howler.

From an examination in a Bombay school: Question—Give the names of the parents of Jonah. Answer (boy of thirteen)—He had none. He was brought up by a whale.

1924 Model Studebaker Light-Six Touring Car \$995

Don't Measure This Car By the Price

There is no product where price so fails to indicate value as in a motor car.

The difference in prices rarely represents a corresponding difference in value. Cars are being offered at prices greatly in excess of the Studebaker Light Six which do not equal its intrinsic value.

Likewise, many cars selling for less, are high-priced compared with the Light Six. They are not in the same class because they do not represent as great intrinsic value for the money invested. The Studebaker Light Six is the real quality car in the thousand-dollar field.

The low price of the Light Six is due to Studebaker's vast physical and financial resources, the saving of middlemen's profits by reason of complete manufacture in Studebaker plants, and low manufacturing and sales overhead per car because of continuous large volume.

The satisfaction delivered by the Light Six is universal. Its performance has won staunch friends everywhere. This is due to its advanced design and construction.

For example, the crankshaft and connecting rods are machined on all surfaces. This practice, which is largely responsible for its virtual freedom from vibration, is exclusive with Studebaker on cars within hundreds of dollars of the Light-Six price.

If you are thinking of investing about one thousand dollars in a car, then in justice to yourself, consider the Studebaker Light-Six first. Come in and see it. Drive it yourself. Driving is believing.

The Lowest INSTALLED Price ever announced for a Farm Electric Light and Power Plant

The DELCO-LIGHT Man is ready NOW to install your DELCO-LIGHT Plant COMPLETE—only \$529.50

for the most popular farm size plant

UNEQUALLED installation facilities, including a nation-wide organization of over 4,000 installation men, make it possible for Delco-Light with their quantity production to set the lowest price ever announced for an electric light plant completely installed.

And—it is highly important, in purchasing any lighting plant that you know the installed price.

The installed price for the most popular size Delco-Light plant includes not only the plant itself—it includes the freight; it includes the actual installation.

tion of that plant; it includes the standard Delco-Light Exide Battery composed of sixteen large capacity cells, built for long life, with extra thick plates and heavy glass jars; the wiring of your house for ten lights to be located anywhere you wish; one power outlet wherever you may want it; a standard set of ten drop lights with sockets and the installation of these lights; and ten standard electric light bulbs—the complete installation ready for you to turn on the lights.

This is the way to buy your electric light and power plant.

Terms So Easy You Cannot Afford To Be Without One

To make it easy for you to get your Delco-Light Plant we have set a very low first payment and made the terms very easy. The local Delco-Light man will explain these terms to you. A liberal discount allowed for cash.

FARM BUREAU NOTES

R. D. BAILEY
County Agricultural Agent

LIMESTONE LEGUMES LIVESTOCK

MEAN PROFITS IN FARMING

Isn't It the Truth?

Mr. Wm. F. Johnston, who is doing such splendid work as County Agent in Wexford County with office at Cadillac, hits the nail plunk on the head when he says:

"Why, Oh Why, is it that although for more than a score of years it has been demonstrated in a thousand places by the most successful practical growers of potatoes that spraying with a high power sprayer is a money making proposition, yet not two in one hundred Michigan growers practice it?"

"Why, Oh Why, after years of demonstration on certain successful farms that seed selection and seed testing is a profitable practice, yet the mass of farmers do neither?"

"Why, Oh Why, when the history of dairying in all the important dairy nations, Denmark, Belgium, Holland and our own dairy sections in Wisconsin, Illinois, New York, etc., has shown that cow-testing and balanced rations are sure profit makers yet in Michigan we have only about 12,000 out of 800,000 cows under test?"

"Why, Oh Why, when it has been proven for generations that the blood of the sire will dictate the quality of offspring, that the bull is one-half the herd; that 15 years Breeding for Production work at the Iowa State Experiment Station shows that daughters of pure-bred bulls increased milk 83 per cent and fat 58 per cent, while granddaughters increased milk 150 per cent and fat 128 per cent over the dam bred to a scrub bull, yet the scrub bull on Michigan farms predominates?"

"Why, Oh Why, when it has been demonstrated in all manners of ways that it takes feed high in proteins and minerals to make milk that so many farmers insist on regarding the cow as a means of cleaning up coarse grasses, corn fodder, wild pasture etc., the best of the very best market for the very best alfalfa, clover, silage, corn and oats that can be grown on the farm?"

"Why, Oh Why, will men persist in dairying with animals that for centuries have been bred to produce beef at the expense of milk, and vice versa?"

"Agriculture claims many ills these days, and for some of them there is good reason.

"It takes a certain amount of effort in any line of endeavor for maintenance, in the dairy cow, the laying hen, the working horse, the factory, mercantile enterprise, transportation system, or growing crop. Effort must be accompanied by training in order to be efficient. Untrained effort usually results in just maintenance or less. Without training, effort needs to be prodigious to accomplish more than mere maintenance.

"What is training? Merely educating ourselves to the best demonstrated practices of the business in which we are engaged and putting this knowledge into action.

"Is it a fact that a large percentage of those engaged in the business of farming are refusing to learn and put into action the tried and demonstrated successful practices that constitute training and that make possible efficient effort that will go beyond mere maintenance into profitable production?"

"The foregoing problems are constantly threatening themselves upon the County Agricultural Agent. In the course of his work. So persistently at times, that he sharply brings himself to task as to whether he is doing all he can in an efficient way to yet these things across to the farmers.

"All the efforts of the United States Department of Agriculture, through over two score Agricultural Colleges and Experiment Stations, several thousands of Specialists and Extension workers re-enforced by thousands of the most successful farmers, growers, breeders, feeders, and dairymen of the United States and other countries of the world, have been put forth for years in a program for better agricultural practices along the lines suggested in the foregoing questions.

"To the farmers of Wexford County, I would make appeal for closer attention to the facts suggested in the questions. That we are woefully lame on many of the practices, nobody will

NOTICE TO CONTRACTORS.

Crawford County Road No. 1, Maple Forest Township, Crawford County, Michigan.

Sealed proposals will be received at the office of the Board of County Road Commissioners at Grayling, Mich., until 10 o'clock central standard time on Monday, Sept. 24th, 1923, by the said Board of County Road Commissioners for the construction of 1.913 miles of road known as Crawford County Road No. 1 and more particularly described as follows:

Beginning at the corner common to sections 27, 28, 33 and 34, T. 28, N. 3, E. 3 W. Maple Forest township, Crawford County, Michigan; thence running easterly 1.913 miles to a point on the section line between sections 28 and 35.

The work will consist of shaping the grade to a width of twenty-four feet and surfacing to a width of nine feet with a course of gravel as per 1922 edition of State Highway Dept. specifications covering base-course of Class B surface, except that gravel must pass a screen having 1 1/4 in. circular openings and must contain not less than 25% of crusher product.

A certified check in the sum of \$300.00 made payable to Ralph Hanna, Chairman County Road Comm., must accompany each proposal.

The right is reserved to reject any or all bids.

Ralph Hanna,
Chairman County Road Comm.

Dated at Grayling, Sept. 12th 1923.
9-13-2.

deny. Let us take hold of these matters and organize our Cow Testing Associations and Spray Rings; let us select and test our seed, or have it done by our own organizations; let us banish the scrub bull from our herds and pay attention to the lessons learned in the course of time and transmitted to us from the world's best producers.

GOITRE CAUSED

CHOKING AND NERVOUSNESS MT. CLEMENS LADY.

Tells of Relief From Home Treatment.

Mrs. Monroe Osborn, Mt. Clemens, Mich. says she will tell or write how her goitre was removed by Sorbol-Quadruple, a colorless liniment.

To the Honorable Board of Supervisors of the County of Wexford, Michigan.

Gentlemen: Your petitioner, the Consumers Power Company, a corporation authorized to do business in the State of Michigan with its principal office in the City of Jackson, Michigan, represents unto your honorable body as follows:

That on October 24, 1913, a permit was granted the Western Michigan Power Company to construct certain dams on the Manistee River in Wexford County, at the locations and of the heights specified in said permit.

That such rights now vest in your petitioner by proper assignments.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) and the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) of Township Twenty-three (23) North, Range Twelve (12) West.

Woman's Case Amazes Grayling

A business man's wife suffered for two years with sore, watery eyes, which pained day and night. Finally she tried simple camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash. This helped her AT ONCE. Another lady reports "it leaves eyes cool and fresh." One small bottle Lavoptik usually helps ANY CASE weak, strained or inflamed eyes. Aluminum eye-cup FREE. A. M. Lewis, druggist.

MORTGAGE SALE.

Whereas, default has been made in the payment of the money secured by a mortgage dated the twenty third day of February, 1922, executed by William T. Murphy and Florence Murphy, his wife, to the undersigned, Marius Hanson, of Grayling, Michigan, which said mortgage was recorded in the office of the register of deeds of Crawford County, Michigan, in Liber F of Mortgages on page 234 on the 13th day of August A. D. 1923;

Whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of one hundred eighty seven and 85/100ths dollars of principal and interest and the further sum of fifteen dollars as an attorney fee provided for by statute which is the whole amount claimed to be unpaid on said mortgage; and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage, of any part thereof, whereby the power of sale contained in said mortgage has become absolute.

Now Therefore, notice is hereby given that by virtue of the said power of sale and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction, to the highest bidder, at the front door of the court house in the Village of Grayling, Michigan, on the 24th day of November, A. D. 1923, at 10 o'clock in the forenoon; which said premises are described as follows, to wit: All that certain piece or parcel of land lying and being in the Village of Grayling in the County of Crawford and State of Michigan and described as follows, to wit: Lot Three of Block Five of Martha M. Brinks Second Addition to the Village of Grayling, according to the recorded plat thereof.

Dated August 23rd, 1923.

Marius Hanson,
Mortgagee.

Geo. L. Alexander,
Attorney for Mortgagee,
Business Address:
